

# Surprise study analysis

Marjan Biria

2024-08-19

## Study description

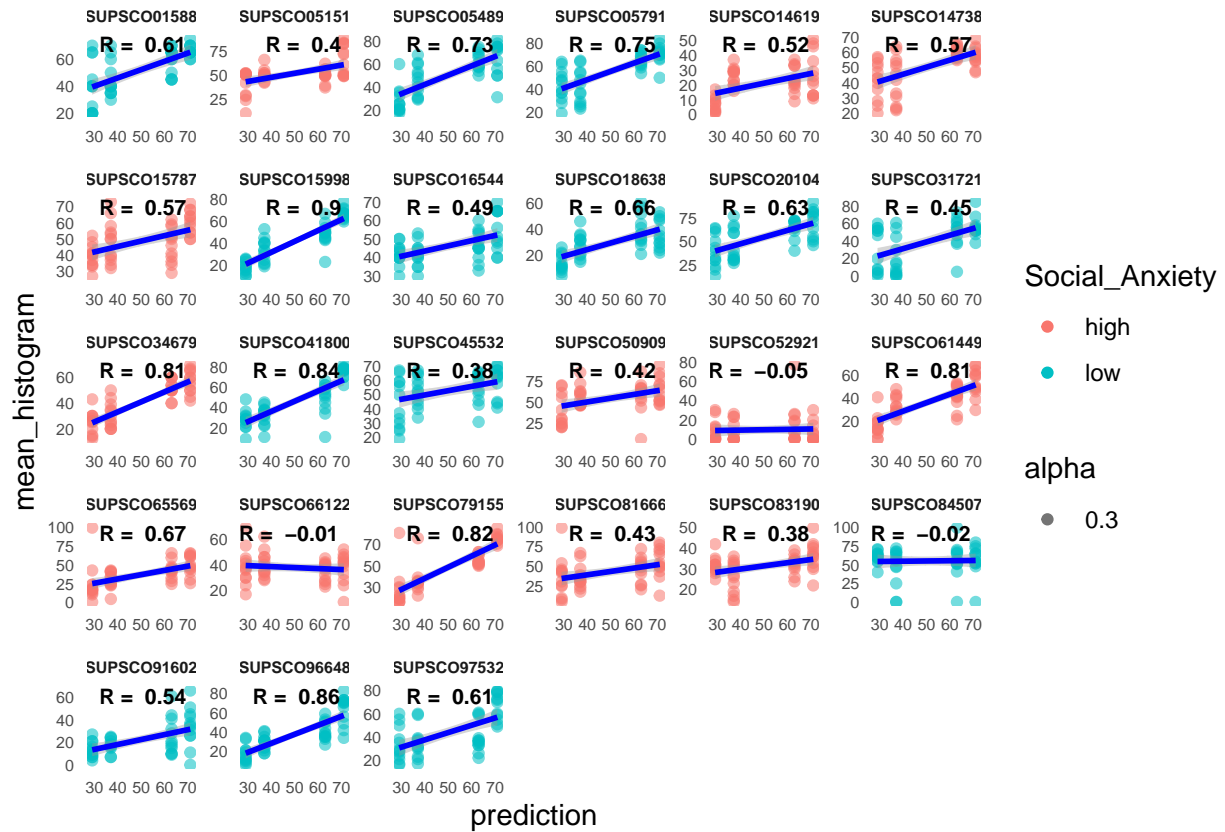

This is the first surprise study using the same task version as pilot 21. We had the following groups of participants with the experiment's corresponding Gorilla link: - Prolific aged 18-25 (n = 30): <https://app.gorilla.sc/admin/experiment/180921/design> - Prolific aged 26-45 (n = 38): <https://app.gorilla.sc/admin/experiment/185160/design> - School students aged 14-18 (n = 30): <https://app.gorilla.sc/admin/experiment/177048/design> - Community participants aged 18-25 (n = 24): <https://app.gorilla.sc/admin/experiment/180348/design>

The sample sizes include participants that potentially need to be excluded.

## Relationship between prediction and mean histograms (4x only in the beginning)

## [1] "average correlation between mean\_hist and prediction: 0.547171131455483"

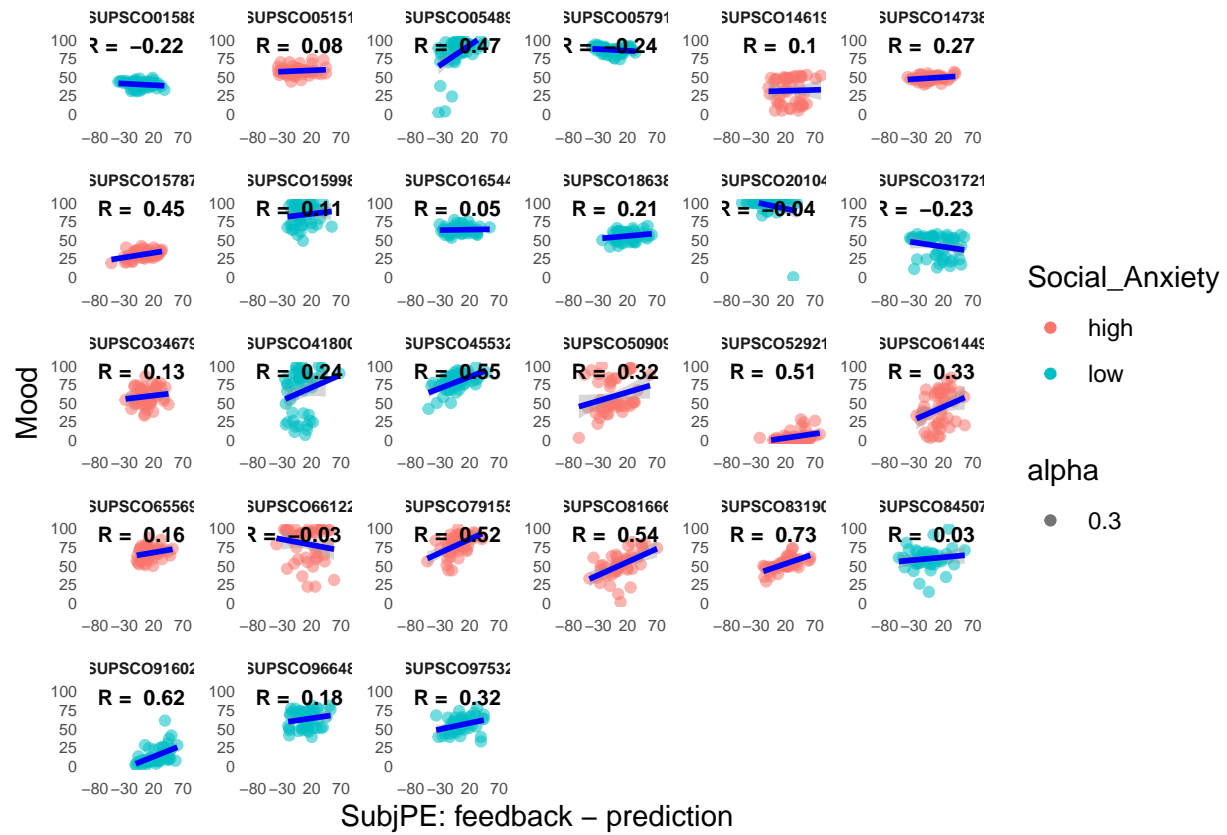

# Relationship between Anxiety and SubjPE

## [1] "average correlation between anxiety and SubjPE: -0.110616241928063"

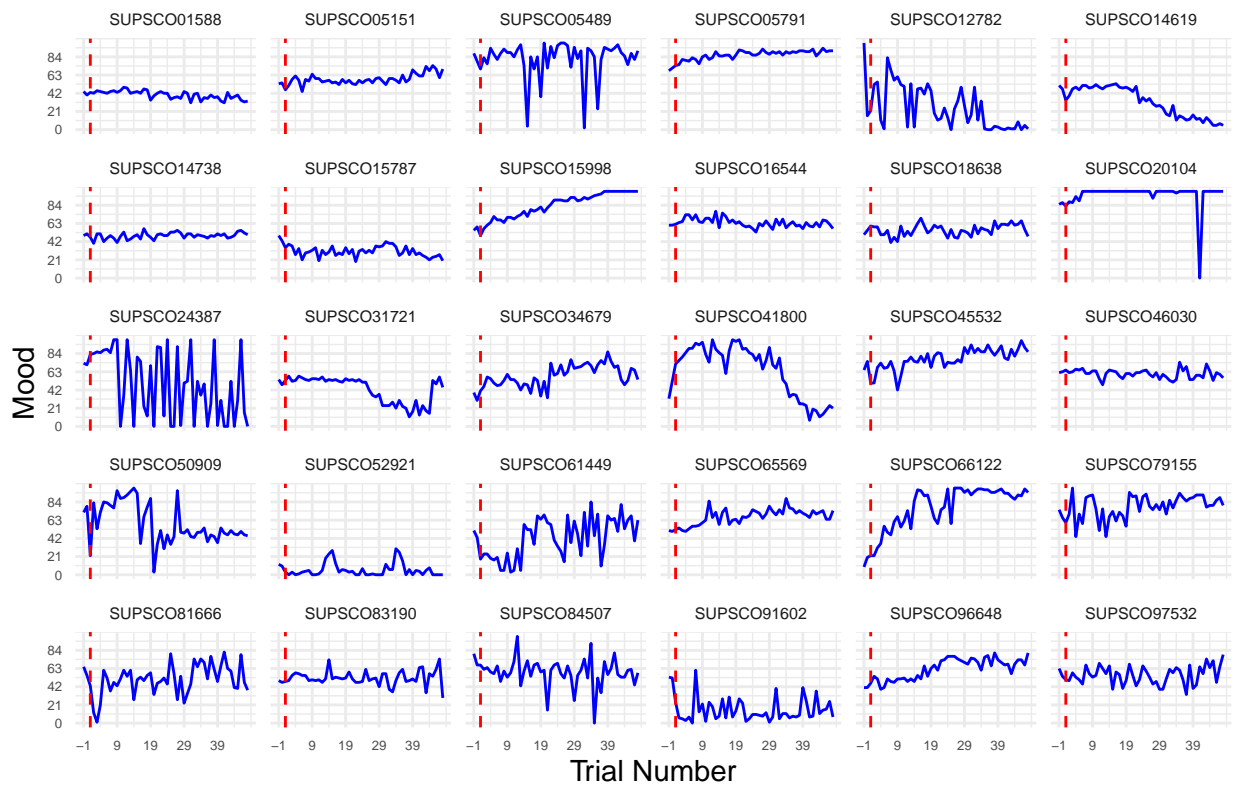

# Relationship between Mood and SubjPE

## [1] "average correlation between mood and SubjPE: 0.227903297786975"

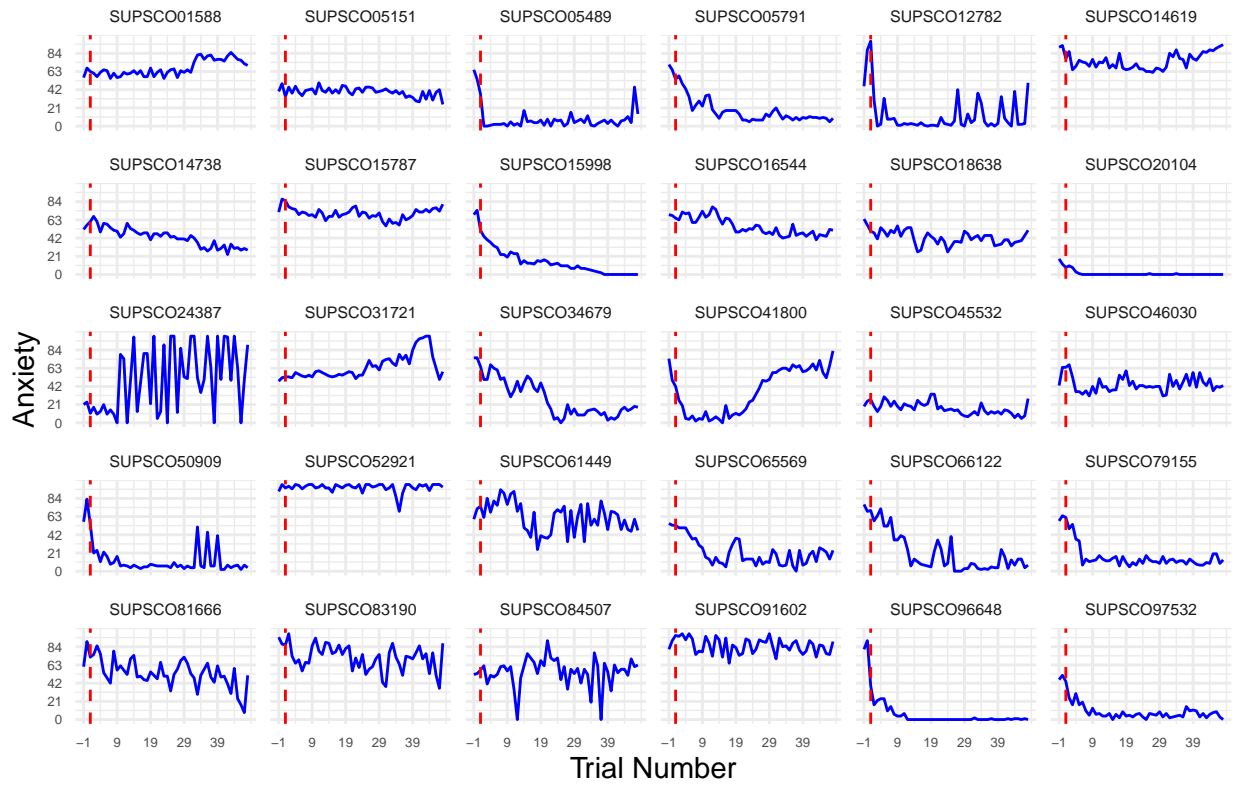

## Mood over time

### Mood across time

# Anxiety over time

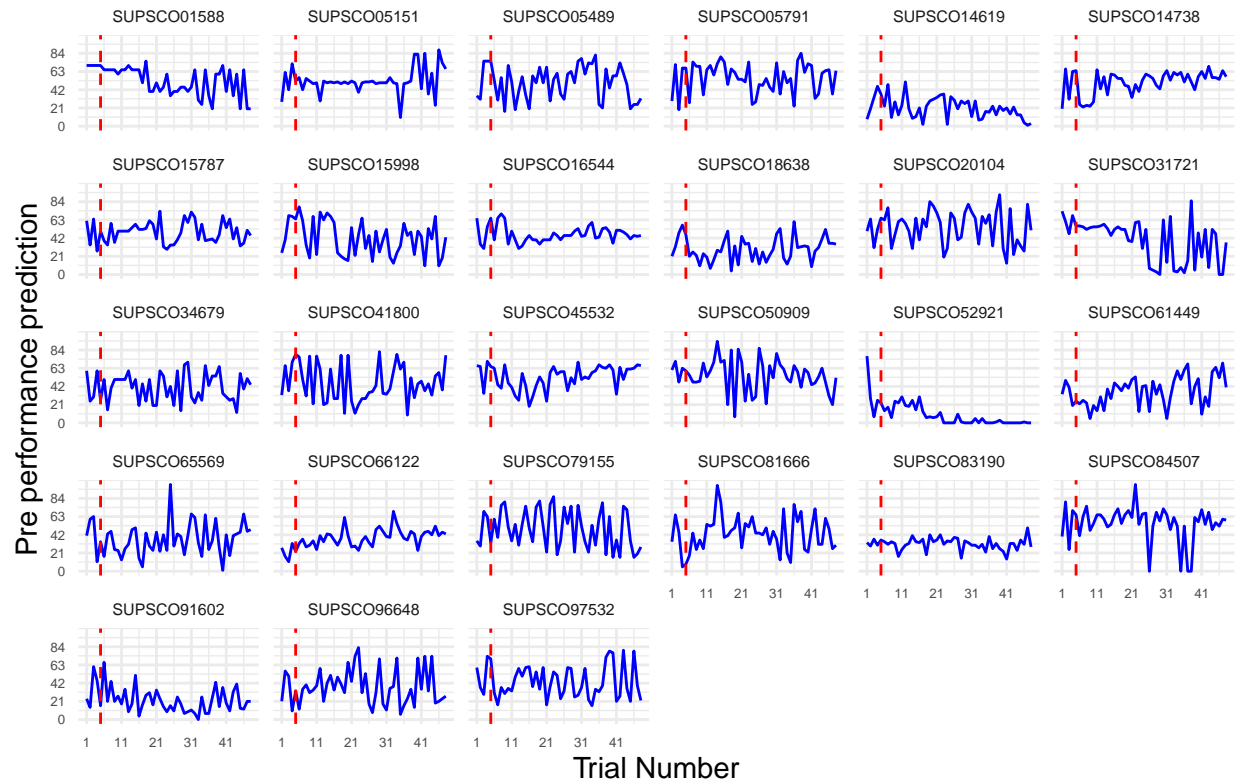

## Anxiety across time

## Prediction before performance over time

Red line presents until what points histograms were presented (4 first trials only).

### Prediction before performance across time

## Stress levels and social anxiety

## LME models for Mood and SubjPE

The best model seems to be:  $\text{Mood} \sim \text{SubjPE} + \text{mini\_SPIN\_total} + (\text{SubjPE} \mid \text{Random\_ID\_new})$

## [1] 10690.55

## [1] 10717.99

## [1] 10687.2

## LME models for Anxiety and SubjPE

The best model seems to be:  $\text{Anxiety} \sim \text{SubjPE} + \text{mini\_SPIN\_total} + (\text{SubjPE} \mid \text{Random\_ID\_new})$

## [1] 10429.17

## [1] 10427.8

## [1] 10425.81

## ICC for Mood

```
## # Intraclass Correlation Coefficient
##
##     Adjusted ICC: 0.677
##     Unadjusted ICC: 0.677
```

## ICC for Anxiety

```
## # Intraclass Correlation Coefficient
##
##     Adjusted ICC: 0.819
##     Unadjusted ICC: 0.819
```
